

Introducing New Tool

OR Insert Plain Text AI will Extract Features and Build Your **Resume**.

The screenshot shows a web interface for uploading a resume. At the top left is a back arrow and the text "Back". The main heading is "Upload your résumé". Below it, a paragraph states: "PDF or Word (.doc/.docx) up to 5 MB, or paste the text. We extract structured fields with AI. You can correct anything afterward." There are two tabs: "Upload file" (selected) and "Paste text". Below the tabs is a large text area with the placeholder text "Paste your résumé text here. Anything is fine, we'll normalize it." At the bottom left, there is a green checkmark icon and the word "Success!". To its right is the Cloudflare logo and the text "Processed transiently — nothing is stored unless you consent at download." At the bottom right is a blue button labeled "Extract résumé".
